Holloway's Ointment.

Contracted or Stiff Joints

Contracted or Stiff Joints.

All the medicines in the London dispensaries would barely benefit, much less cure, any chronic cases of contracted or stiff joints; whereas if this invaluable ointment be effectually rubbed into such parts twice a day, the effects will be immense. Paralytic patients even can derive ofvantages from this fine remedy when other means fail. Opposite the Occidental.

Scorbutic Humours.—Scald Head and Skin Diseased.

Scorbutic humors arise from an impure state of the blood, and in most cases the liver and stomach are the organs at fault. The Pills will speedily restore these to a healthy action; while the Ointment if well rubbed in at least twice a day, will soon cure any case of skin disease. Soldiers, sailors, and miners, use this famous Ointment in all parts of the world.

Disorders of the Kidneys, Stone and Grave In any of the above complaints more benefit may be derived in twenty-four hours by adopting the following simple means than is frequently brough, about in six months by any other treatment. In abad cases if the Ointmenthe rubbed into the small of the back over the region of the kidneys, it will of the back over the region of the kidneys, it will quickly penetrate, and, in most instances, give immediate relief. Six or eight of the Pillssheuld be taken nightly according to accumustances.

Diptheria, Sore Throats, &c.

Diptheria, Sore Throats, &c.

These maladies are of so serious and dangerous a nature that the Ointment would not be recommended unless the Proprietor was sure of its effect. It will cure when every othe means have failed, if applied immediately, and not delayed unithe path at is beyond recovery. It is a swerengar remedy for sore throat. Settled Coughs or wheering will be promptly removed by rubbing in their insurguent. Mothers should rub it into the chest of heir infants whenever there is any hourseness, ightness, or other affection of breathing. HIS FINE HOTEL IS NOW PETTED BRIDAL APARTMENTS FURNISHED AT SHORT NOTICE.

Bad Legs, Bad Breasts .- Old Wounds, Sores and Ulcers. and Ulcers.

It is surprising how quickly a sore, ulcer, or wound, deprives the body of strength, and unfits it for the duties of life; but it is no less wonderful to watch the effect of Holloway's Hea'ing Ointment, when it is used according to the printed directions, and assisted by appropriate doses of the Pills. The pain, inflammation, and other morbid manifestations, soon disappear from the affected part and health and strength return.— This treatment creaters sound flesh, and therefore makes its cures complete.

Gout and Rhenmaticm

makes its cures complete.

Gout and Rheumatism.

Will be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts. This treatment must be perseveringly followed for some time and duly assisted by powerful doses of Holloway's Pilis. The essence of these diseases lies in the blood, which has floating through each vessel the paingiving poison which vitiates and inflames every tissue t comes in contact with, and produces the hot, swollen, elastic enlargement about the joints so characteristic of gouty and rheumatic maladies.

Both the Ointment and Pills should be used in the following cases: Ear Legs Chibbins Chapped Hands Remained Burlons Burlo

CAPITAL AND ITS CHANNELS.

Of all the unprejudiced things in this world money stands out pre-eminent. A piece of silver reposes as contentedly in the pocket of Jem Baggs as in the purse of Baron of the age, they have it in their power to Rothschild, and is just as much valued by the vendor of wares coming from the one source as from the other. The most fastidious Caucasian, who dreads contact with "interior" races, will take the African's half dollar and the Chinaman's "two-bittee," with more than a religious toleration." It is, indeed, astonshing sometimes how he will descend from his lofty pedestal and stoop below the level of ordinary dignity to possess himself of the "inferior's" coin. Rising from the pettiness of retail and ascending into the sphere where money assumes a more pretentious charac ter, and is called capital, we find it, despite diverse nationalities, despite the prejudices of creed, caste and color, following the universal law of supply and demand, and visiting those places which pay it best. It rushes off to-day from London to India, and opens up the jungle to railway traffic; to-morrow it gives to the native industry of China a fresh impetus; it enables the Sultan of Turkey to boast of an iron-clad, and supplies Russia with the means of making another and more impregnable Sebastopol. To build up a country or batter it down, to open up the interior or blockade the coast, accommodating Capital is over ready, provided only that its security and its interest are

satisfactory.

Our late New York exchanges give us the details of the visit of Sir Marton Peto and his brother capitalists to the great central States of the American republic. We are told how the English gentlemen were feted here and "levee'd" there; how they clambered up oil tanks, and inspected iron mines; how they went from one State to another peering into this thing and examining that, and running by rail until they reached the great granary of the West. The immense resources of the Republic were shown them, so far as a fleeting visit can afford that opportunity; the startling changes which capital, and energy in a very little time had wrought were placed vividly before their eyes; and the Yankee, with pardonable national pride, was not slow we have no doubt, in pointing out the fac that although the nation had just emerged from a desolating civil war, the whole machinery of industrial life was again at work as if a cloud had never passed across the horizon. This latter assurance was by ne means startling to Sir Morton Peto and his friends; for these gentlemen had launched their money on an American venture, and seen the scheme approach completion at the very height of the American war. They built the new railway called the Atlantic and Great Western at a time when everything seemed unstable; but they had faith in the free institutions of the country, and have had abundant reasons to feel satisfied with their speculation. They now seek fresh investments-they now come to the United State representing other capitalists in England, fo the purpose of developing new mines o wealth. It matters not how the Atlantic may roar and fret between, how the Yankee may talk belligerent and John Bull respond in kind-how in fact Republicanism may assert with jaunty airs its indisputable claims over the human race-Sir Morton Peto, with that unsympathising materialism of capital only asks-will his investment pay? He cares not, in a business point of view, about all the prejudices of either country-only show him an advantageous employment for his wealth and his object is achieved.

We are sorry that we have no visits from Sir Morton Peto, and that English capita does not find so good a return in British Colonies as it does in the States of the American Union; but our sorrow cannot help matters. Not until the full powers of nationality are conferred on the British Provinces of North America, will that vigor and energy be evinced which are so pre-eminently displayed by the neighboring republic. In the meantime, however, our New York friends are anxious to see us participators in the general benefits that are anticipated to arise from the visit to America of the English capitalists. The New York Tribune puts the following programme for ward as among the most worthy that could attract the attention of England's million-aires: "Our Pacific railroads" says our contemporary, who in some of his colonia statements is very incorrect "are peculiarly inviting to moneyed men. It is the purpose of the British Government to open a path to the Pacific Ocean. Let these gentlemen find one. They must see that their Atlantic and Great Western, rich as it is now, wil become far more valuable when its freight trains are burdened with the teas of China and the spices of the occidental nations. England has long desired a road to the Pacific, and her engineers have time and again endeavored to find a way through British America. The favorite scheme has been to continue the Grand Trunk Railway to Lake Superior, and thence by way of rivers and lakes and branch roads to Puget Sound. The difficulty with this plan lies in the climate. For six months in the year the route would not be useful. Accordingly, British enterprise will probably be compelled reluctantly to abandon the project of a British railroad. If Sir Morton Peto and his friends have much money to spend, let them go to work and do for British Ame rica, and indeed for the British Empire, what its own engineers have failed to do. They can practically take charge of the enterprise by running their Great Western road to Fond Over 50 different Styles. du Lac, and thence unite with the Northern

he United States, but it lies on the British American border, and for all purposes of trade is a British American road. Or if they prefer an enterprise more English, let them run

in this country, because every investmen

brings us nearer to Great Britain. We seek

this union in the interest of peace and civil-

zation. With an American railroad carrying

freight from Montreal to Puget Sound, bind-

ing England's Atlantic capital with her prob-

able naval depot at Vancouver Island. perpetual peace would be assured between the United States and England; or, in the

event of war, we should have the Canadas on

the good behavior of neutrals. It would be

a fair exchange. England proposes to give us a telegraph to London; we propose to give

England a railway from Montreal to her

possessions on the Pacific. We shall do

this ourselves sooner or later. But if our

friends on the junketing trip through the

West, wish to achieve the greatest enterprise

take instant hold and assist in the work."

THEATRE-Mr. C. Clarke's benefit last night was honored with one of the best audiences of the season. Every seat in the dress circle was occupied. The performance commenced with the fine comedy of a " Bachelor of Arts." in which the celebrated Charles Matthews as Harry Jasper created a furore in London. This character was per sonated three years ago by the same amateur, Mr. A. M. Harris, a gentleman who possesses considerable talent in light comedy. It amateur to venture upon a part which any distinguished comedian has rendered essentially his own, and with whose standard the audience therefore naturally draw comparisons, but withal, setting aside a little nervous coughing and hesitation and redundancy of action in his legs, a failing too common with amateurs, Mr. Harris enacted his part with great success and was frequently applauded. Andrew Wylie, the money lender, met with a very able representative in the person of Mr. J. C. Pratt, who appeared quite at home on the stage and gave all his points with an evident appreciation of the business. Mr. W. C. Callingham made quite a hit as Mathew the footman. His make up, his jaunty strut, his distinct and pointed delivery, and, above all, his capital by-play, were highly relished by the audience, and drew forth a sons, but withal, setting aside a little nervou relished by the audience, and drew forth fresh burst of laughter every time he appeared on the boards. Mr. J. Barnett made rather a on the boards Mr. J. Barnett made rather a solemn old Mr. Thornton, but acted carefully. John Tummus and Jearnes made useful and obedient flunkics. Of the professionals, Mrs. Wood ably enacted Mrs. Thornton, and Miss Jenny Arnot made a charming little Emma. Frederick Adderly and Adolphus were well portrayed by Messrs. Reverse and Redifer—The sparkling little farce of "Somebody Else," which followed, played by the professionals, afforded infinite amusement. The character of Minnie, the wheelwright's ward. fessionals, afforded infinite amusement. The character of Minnie, the wheelwright's ward, is admirably adapted to Mrs. Fanny Morgan Phelps, and together with Mr. A. R. Phelps, Mr. Reeves and Jenny Arnot, the spirit of the piece was thoroughly maintained all through. Mr. Clarke, the beneficiary, who had the small part of Flitterman to perform, net with a most flattering reception. and met with a most flattering reception, and threw much humor into the "monkey faced covered." coxomb." At the conclusion he was called forward with Mrs. Phelps, and briefly thanked the audience for the flattering mark of their favor. The entertainment concluded with the laughable farce of the "Two Buzzards:" or, able farce of the "Two Buzzards:" or, "Whitebait at Greenwich," in which Mr. Clarke, as "Benjamin Buzzard," and Mr. Daniel, as "Mr. Glimmer," performed cap-itally, and with the able assistance of Mr. Torrence, who made an excellent "John Torrence, who made an excellent "John Small," and Mrs. Wood and Jenny Arnot kept up the fun all through, sending the audience home well pleased. To-night will be presented the ever-popular play of "Nell Gwynne," concluding with "Love in Humble Life."

RESIGNED-Mr. A. H. Francis last evening, as will be seen on referring to our advertising columns, resigned his seat, at the municipal board as Councillor for Yates Street Ward. It would seem that Mr. Fran- dispatches had been received at New Westcis' name does not appear on the Assessment Roll of 1863, which disqualifies him from holding the office to which he has been elected by the voice of the electors. The next highest vote in that ward was obtained

RAISING WILD GEESE-Our Cariboo correspondent states that at the 59 mile post he was shown four large perfectly domesticated feathered bipeds raised by a barn door fowl from the eggs of a wild goose, and he is of opinion that the numerous nests of the latter bird to be found in some portions of British Columbia may be easily turned, by a similar process, to practical use and made to supply farmers with all the game they require.

STEAMER SUNK.— The propeller Buckeye, left Brockville at 4, a. m., on September 25th, for Detroit and Cleveland. Her cargo consisted of general merchandise, with also about 150 tons of marble. She had about 25 passengers and 18 of a crew. She struck on a rock near Cross river light, in the St. Lawrence fiver, a mile above Oak point, and sunk in seventy feet of water. The passengers were aroused, but hardly had time to realize their peril, when the boat slid from the rock and snuk. Three passengers are known to have been lost, named Mrs. O'Neil of Oswego, and Mrs. and Miss Aubary, of Milwaukee. As the boat went down three men were seen in the water under the stern, and it is feared they also were lost. There was not twenty minutes time after the vessel struck before she sunk. The surviving passengers were brought to Brockville by the steamer Champion, of the Royal Mail Line. The low water and the extreme darkness of the night are the reasons given for the sad accident.—Leader. FROM SAN FRANCISCO-The brigs Brewster and Franklin arrived vesterday from San Francisco. Tne former has a miscellaneous cargo valued at \$34,347 69, and is consigned to the Hudson Bay Company; the latter has a valuable miscellaneous cargo, including a quantity of express goods, on which an embargo was laid at San Francisco, and comes consigned to Messrs. Pickett & Co.

DEBATING CLASS-There will be no meeting of this class this evening, in consequence of the unavoidable absence of many of its members. Mr. W. K. Bull will deliver a lecture. Subject: "A trip from Melbourne to Tahiti and other Islands in the South Seas," of which further notice will be given.

CUSTOMS RECEIPTS, for week ending Saturday, November 11th, 1865 :- Duties (import) £434 5s; Duties (export/, £583 1s 5d; Harbor Dues, £19 15s 4d; Head Money, £11; Tonnage Dues, £87 4s 1d; Fines and Seizures, £3 8, 9d. Total, £1,338 1s 7d .-

THE NEW IDEA was again crowded last night, and the singing, dancing, and other performances as attractive as ever. The insinuating " Little Nell " takes her benefit on Saturday night, when she expects to see her

host of admirers present. FOR METLAKAHTLA-We understand that H.M.S. Clio received orders yesterday to

proceed to the above missionary station on the North West coast. THE MAYORALTY-Mr. Copland's petition against the return of Mr. Franklin to the civic chair will be heard this morning, at 10

o'clock, before Chief Justice Needham; FINED-Michael Carney was fined \$10 in the police court yesterday for damaging the doors of some shanties on Fisgard street.

PROSPECTUS OF MR. MACFIE'S WORK—We have received, per sailing vessel from England, the prospectus of the Rev. Matthew Macfie's work on Vancouver Island and British Columbia, published by Longman, in one of the control of the contro ish Columbia, published by Longman, in one A company has already been for vol., 80v. pp. 598, with two maps and seven operations are to begin forthwith.

tical statistics; proposed inter-oceanic rail-way; emigrant route and telegraph; their influence on the growth of the colonies; so

ciety in both colonies; Indians, emigration, etc." The preface is neatly and aptly worded, and from the pains taken by the author in the collection of facts and statistics during his

sojourn on the Island, we have no doubt that

INDIAN TRIBES-We have been favored

with the perusal of a most inter sting pam phlet, entitled " Notes on the Indian Tribes

of British North America, and the North-

west Coast," by Alexander C. Anderson, Esq., late of the Hon. H. B. Company, at present residing at North Saanich, read be

ore the New York Historical Society, and

published in the Historical Magazine. This ittle sketch is not only written in a pleasing, flowing style, but conveys much valuable information respecting the aboriginal tribes who inhabit the north-western portion of British North America. Mr. Anderson, from his long residence in Oregon and these colonies, has been enabled to gather facts that render him an authority upon the subject of which he treats.

[From the Columbian].

# Tremendous Rain Storm;

Great Destruction of Property. Latest advices from Yale and Douglas bring intelligence of a terrible rain storm which prevailed during Saturday and Sunday, causing the streams everywhere to break over their banks, destroying roads and sweeping away bridges. The waters of the Fraser rose sever leet in as many hours at Yale on Sunday. Several slides took place on the road between Yale and Lytton rendering it impassable for wagons. The old Spuzzum bridge was carried away; the old Quoquella bridge was swept away; together with bridge was swept away, together with about one half of the new one, and from the swollen appearance of the streams flowing into the Fraser below Hope, it is feared that many of the bridges on the new road must have met with a similar fate. On the Doughave met with a similar fate. On the Doug-las Lillocet route the storm was equally severe although as yet the consequences are less known. The freshet had rendered the road over the Douglas Portage impassable for teams, and had swept away the bridge at the 16 Mile House, Mr. Gowan's. This bridge was a very substantial structure, and it is presumable that a freshet which would carry it away would not confine its rayges to that taway would not confine its ravages to that work. Indeed, there is every reason to fear that we shall hear of much damage farther

that we shall hear of much damage farther in the interior. At the time the bridge at Mr. Gowan's gave way under the pressure of the flood and the accumulation of debris brought down by it, an Italian was crossing on horseback. He had scarcely passed the centre of the bridge when the planking began to heave and pitch under the horse's feet. Burying his big spurs into the poor terrified animal's lanks, it succeeded with a few desperate plunges in reaching the landing, with bruised and bleeding limbs, and just in time to save its own life and that of its rider. Looking back, the horror-stricken Looking back, the horror-stricker Italian had just time to eatch a glimpse o the wreck as it was carried over the foaming

rupt. Re Alex. D. McDonald—His Honor directed the trade assignees of this bankrupt estate to appear before him on Wednesday, 22d in-tant, and to hand in all books, papers, and documents in the custody of the Registrat. Re Blackman—The trade assignees in this estate were ordered to pay into the court the sum of \$397-24, being the per centage charged near the process is of the estate to be a controlled and the estate to be a controlled and the process is of the estate to be a controlled and the estate to be a controlled an the week as it was carried over the foaming entaract hard by.

To come nearer home, the storm would appear to have spent its fury before reaching New Westminster. Although it blew a gale and rained heavily yet neither were much out of the ordinary way. Nor have we heard of any damage worthy of notice in this vicinity. On Sunday evening we had a regular thunder storm, but not much rain. The weather continued shower with more or less weather continued showery with more or less wind till Monday noon, when it lightened, and towards evening a magnificent rainbow for Ladies and Gentlemen, on Wednesday and Saturday evenings, at 8 o'clock. The class for children will be held on Wednesday and Saturday atternoons at half-past three o'clock. The school will meet at Mrs. Digby Palmer's residence, on Douglas street, corner of Fort street. Mr. Palmer presides at the pianolotte for both classes. Terms per month—Adults, \$5; Juveniles, \$3; Private Lessons, \$8. made its appearance in the eastern sky ine, and everything looks bright again.

#### BRIDGE RIVER MINES.

The following is an extract from a private letter written to a friend by Mr. Jamieson, commander of the Bridge River Exploring Expedition:

\*\* \* \* \* \* \* Your letter requesting information about the Bridge River diagongs, was handed to me only last night. There is no humbug about the diagongs; they are just as they have been represented to be, but until a trail is made they are to all intents and purposes 'a sealed book.' I would therefore say to you 'rest and be thankful,' until you hear that a trail is made. My own opinion is that there will be no trail made this year."

#### AGRICULTURE IN BRITISH COL-UMBIA.

[From our Travelling Correspondent.]

FARMING.
Around Soda Creek there are several acres
land under cultivation where vegetables cellency the Governor and family and the of

grow most luxuriantly.
At Deep Creek Frank Way possesses one At fleep Creek Frank Way possesses one of the most beautiful ranches in the colony. Owing to the great altitude of the country—Deep Creek being 2255 above the level of the sea—it is cold, and scarcely productive of anything but oats for pasture. Frank Way had about 100 acres of land sowed with oats &c. last season.

75 acres of land under cultivation last season, from which he raised barley, oats, wheat and all kinds of vegetables. On my passing there a gang of Chinamen seemed to be very

wires Down-in consequence of the English ships Countess of the English ships Countes of the Leading ball to the states of the English ships Countes of the tent of the Country to grind their when It ships and the intend, when the snow packs hard wheat enough for their own use to Dog creek where Brown and Gaspard have put up a small flour mill.

Elmore had 150 acres of land under culti-

Elmore had 150 acres of land under cultivation, raising oats and almost all kinds of kitchen vegetables; his ranch is located on the Alexandria road, between the Mouth of Quesnelle and Soda creek.

Around Williams lake there are, in the aggregate, 200 acres of land under cultivation, producing oats, barley and wheat, though I should think this place rather cold the average altitude being 2135 feet above the average altitude being 2135 feet abov the level of the sea-for raising the latter

article.

Murphy, at the 141 mile post from Lillooet, had 50 acres sown with oats, barley, and wheat enough for an experiment. It grew to perfect maturity.

Felker had a few acres of oats. There is

Felker had a few acres of oats. There is at his place a party who has cut down during the season 190 tons of hay. Felker has a mania for building. At his farm may be seen a small village of buildings, which must have cost him a good deal of money.

At Lake Lahache, Anderson, who has greatly improved his premises, has about 20 acres under cultivation.

Blair Brothers, who have sold out their place to Mr. Mansell, have a large patch of land under cultivation.

and under cultivation.

Roper & Co., at the 108 mile post, had several acres sown with oats, &c.

At Bridge creek I saw from 50 to 60 acres of land under cultivation, where they have been growing oats, barley, etc. The raising

been growing oats, barley, etc. The raising of wheat here is out of the question, the place being 3086 feet above the level of the sea.— Vegetables do very well.

From Bridge creek to Cut Off Valley, a distance of about 50 miles, there is a scope of country commonly called the Green Timbers. It is almost unproductive, owing to its great altitude and the great cold reigning over that region for the most part of the year. People there get their supply of potatoes, etc., from Canoe creek. I should set down its avenue height at 3600 feet above the level of the sea.

Fire in London—A fire broke out in Eldridge's bakery, Clarence street, and completely destroyed the premises. The inmates had barely time to escape. Mr. Remelse's dye-house adjoining was also consumed, his family escaping in their night clothes. Mr. Eldridge's stable was burned; his house also perished in the flames. Mr. Dunbar's driving shed, containing two new carriages, was burned with all its contents. The losses are pretty heavy.—Ib.

Mr. Toy is to sow 20 acres next season

More Petroleum Discoveries—A corwith this kind of grain. This is a great

Mose Petroleum Discoveries—A correspondent, writing from Waterloo, to the Guelph Advertiser, says:

6 An excitement has been caused here by the supposed discovery of coal oil. The spot where the discovery was made is situated on the premises adjoining Mr. B. Devitt's stave factory. There are very strong indications; will, no doubt, come in as one of the com-

the surface presents a very oleaginous appearance, and in fact for about a foot below the surface the fluid is strongly impregnated with what is verily believed to be petroleum. The citizens entertain very sanguine hope a company has already been formed, and operations are to begin forthwith.

BRITISH COLUMBIA.

The steamer Enterprise arrived yesterday from New Westminster with 73 passengers and an Express. The news brought by her is very meagre. There had been no fresh is very meagre. There had been no fresh article was frozen.

There had been no fresh article was frozen.

Cornwall, on the Fort Yale route, has on Cornwall, on the Fort Yale route, has one of the largest landed estates in the solony, viz.: 7,000 acres. Ont of this about 70 acres were sown with oats, barley, &c. Mr. Cornwall raised during the past season 300 bushels of wheat. He has put up at his place a small flour mill which grinds 25 lbs. an hour. The altitude of this place, which is 1508 feet above the level of the sea, seems to be no impediment to the raising of good wheat. Mr. Cornwall has between 200 and 300 head of cattle.

head of cattle.

At Scot'y's and M'Clean's farms there are a few acres of land under cultivation, which were sown with oats, barley, &c. At the latter place they raised last ceason some beautiful melons and squash, and I was shown an ear of Indian corn over a foot long:

At Cache Crook M. Santgel had 65 acres At Cache Creek Mr. Sanford had 65 acres

At Cache Creek Mt. Sanford had 65 acres under crop of wheat, barley, &c., and cut 50 tons of hay.

Dr. Caughell and Campbell who have pleughed 60 acres this fall on Cache Creek, raised last season 40 tons of grain. Baron Brothers had 35 acres under cultivation. Dominique and his partner, a Frenchman, raised 75 tons of barley, three tons of wheat, twenty of petatoes

They have 80 head of cattle.

tion, and raised oats, barley, corn beautiful beaus, and splendid wheat. At his place we fed on bread made of wheat grown on his

Around Lytton City, there were about 80 Around Lytton City, there were about 80 acres of land under cultivation last season. From Lytton City to Fort Yale there are only a few acres of land under cultivation, which seem to be most productive, if I may form an opinion from the samples of produce I was shown. At Siska Flat, a Frenchman raised a potatoe weighing one and a half pounds, and Frank, at the eleven-unile post from Fort Yale, dug out eighteen potatoes weighing seventeen and a half pounds. He says he is indebted for such a result to manuring.

uring.
In my next I shall point out the best means of improving our agricultural re-

Holloway's Pills and Ointment.—In angry HOLLOWAY'S PILLS AND OINTMENT.—In angry or indolent sores, and all skin diseases originating in impure or weak blood, or deprayed secretions, the joint agency of Holloway's Pills and Ointment is perfectly irresistible. It is of little consequence how long these disorders may have lasted, or how stuggish and obstinate, or malignant they may seem, the daily application of the Ointment to the parts affected, and a course of these maichless Pills, will most certainly effect a cure, not temporary or superficial, but complete and permanent. Both the Ointment and Pills are composed of rare Balsams, unmixed with mercury or any other deleterious substance. They are, accordingly, as mild and sade as they are powerful and efficacious,

and efficacious,

HOLLOWAY'S OINTMENT AND PILLS—These potent remedies constitute a materia medica in themselves, for there is no internal or external disorder cont.ollable by medicine for which the one or the other of them is not a positive remedy—cruptions, tumors, scrofula, seurry, cancer, asthma, rheumatism, gout, and dropsy entirely subside and disappear under the action of these joint medicines; and in cases of indigestion, sick headache, bille, liver complaints, debility, and other disorders originating in the internal organs, the Pills produce the most astouishing results imaginable. The student of Nature knows how simple are her ways; if one preparation can throw out all the impurities of the blood, disease is conquered and art is triumphant, because it adopted the simplicity of Nature.

the simplicity of Nature.

HOLLOWAY'S PILLS AND OINTMENT—Billousnes.—Dyspepsia.—There is no organ in the human body so liable to derangement as the liver. Food, fatigue, climate, and anxiety, all disorder its action, and renders its secretion—the bile—more or less depraved, superabundant or scanty, The first symptoms should receive attention. A pain in the side, or the top of the shoulder, a harsh cough and difficulty of breathing, are signs of liver disease, which are removed without delay by friction with Holloway's Ointment. The Pills should also be taken early. For all diseases of this vital organ, the action of these conjoined remedies is a specific, by checking the over supply of bile, regulating its secretion and giving nervous tone.

HOLLOWAY's PILLS are undeniably the finest medicine in the world for bilousness and indivestion. In all cases of deranged stomach, determination of blood to the head, bile sick head ache, liver, and stomach complaints, there is no medicine known that will give immediate relief as these renowned Pills; young and old, rich and poor, patronize them, and so many cures are effected by their use, that their praise is sounded from the torrid to the frigid zone; in truth, persons who travel consider them a necessary requisite. In sultry weather or warm elimates, or in India, the blood becomes overheated, the liver torpid, the skin covered with prickly heat, and the whole system languid and exhausted. Nothing so soon gives relief as Holloway's Pills.

HOLLOWAY'S OINTERT AND PILLS are an in.

Holloway's Ointment and Pills are an ialiable remedy for bad legs, and all kinds rounds. The surprising sale of these invalual nedicines, in every part of the civilized world, he most convincing proof of their efficacy. Th medicines. Their united action is irresi More need not be said in their praise. Let who doubt their excellence give them a call

QUEEN CHARLOTTE Coal Mining Company

Capital, - - - £30,000, IN 15,000 SHARES OF £2 EACH.

Joint Stock Companies' Act. 1859 which specially limits each Shareholder's liability to the amount of his shares. DIRECTORS:

Incorporated under the British Columbia

THOMAS TROUNCE, Esq., Chairman Jas. Dickson, Fsq, M. D. Wm. P Sayward, Esq., C. Houndow, Esq., J. B. Timmermann, Esq. C. Vereydhen, Esq. WM. P. SAYWARD-TREASURER.
J. S. WILLIS-SECRETARY. BANKERS-BANK OF BRITISH NORTH AMERICA

This Company has been formed for the purpose of developing and working several extensive and valuable seams of Anthracite Coal lately discovered in Queen Charlotte I-land.

At present this is the only mine of pure Anthracite Coal known to exist on the Pacific Coast, and from the large and increasing quantity required and shipped to San Fran 5 so and other ports the discovery is one of great importance and value.

thickness, are situated on the South of Graham Island, Queen Charlotte group, about 2000 yards from the shortes of a fine Bay and about 400 feet above the level of the sea. the construction of an easy and linexpensive transway about 150 feet projection are all the works the Company will require to enable them to offer coal in the markets

There is a large demand for anthracite coal to supply foundries, steamers, &c., &c., in San Francisco, Portland, Victoria and other ports, all of which has to be shipped from the Eastern Sates or from Europe at a great expense, the selling price ranging according to quality from \$16 to \$25 in some markets in others higher; the trade to Panama and along the Pacific coast will be considerable. An extens ve trade will also be open with China and Japan. The naval stations of Bugland, United States of America, France and thusses were necessity engaging a large

Quantity.

Of the 15,000 shares forming the Capital Stock of the Company 7,500 are classed A (original shares) paid up to £1, and lisbic to additional call of £1.

> ports the discovery is one or great important value.
>
> The Company have had reserved to them by the Government Twenty Thousand Acres for mining purposes, five thousand of which is secured (at present) by lease at the nominal rent of \$100 per annum, with the additional privilege o purchasing 1000 acres at \$1 per acre for a town site. te. The ccal seams, from three to seven leet in

kets
The quality of the coal has been fairly tested.
The engineers of several of the steamers have pronounced it to be of the very best quality; it has also been used by the proprietors of the foung dries in the city of Victoria whose reports are an nexed, and declared by them to be equal if not superior to the best Ponnsylvania Anthracite Coal.

nexed, and declared by them to be equal it not superior to the best Pennsylvania Anthracite Coal.

The great advantage of the position of the mine cannot be brought too prominently to the notice of intending Shareholders, its close proximity to the coast, together with its superior quality renders it of great value; also an easy access for vessels of any tonnage, a safe and commodious harbor perfectly sheltered and land locked with secure and good anchorage, will enable vessels at all seasons and weather to load at the Company's wharf.

There is a large demand for anthracite coal to supply foundries, steamers, &c., &c., in San Fran-

6,000 0 0

£7,500 0 0

The Works, of which the above are an estimate, are in active operation, the Company having engaged and sent forward to the mine a number of skilled workmen who are under the direction of George Re-binson, Esq. for many years Superintendent of the Nanamo Coal Mines, and it is confidently hoped that by the month of April, 1896, the mine will be fully opened, and the Company prepared to supply Coal at their wharf.

Ter reports see pamphlet prospectus to be had at the Company's Ufflee.

IN THE ARMY.

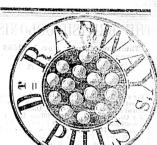

Holloway's Pills and Ointment.—Influenza, Colds.—In diseases of the throat and chest, so prevalent in this country, nothing so speedily relieves or so certainly cures as these inestimable remedies. These disorders are too often neglected at the commencement; or are injudiciously treated, resulting in either case, in disastrous consequences. Whateverthe condition of the patient, Holloway's medicines will testore, if recovery be possible; they will retard the alar-ning symptoms till the blood is purified and Nature consumates the cure, gradually restoring strength and and the clood is purified and Nature consummates the cure, gradually restoring strength an vital nervous power. By persevering in the us of Holloway's preparations, tone is conferred on the stomach and frame generally; the fluids aregalerated, morbide matter is expelled, and happy revolution occurs throughout the system.

Holloway's Ointment.—Wounds, Sealds, Burns, and Irritating Sores.—The peculiarly mild, soothing, anti-inflammatory power exerted by this Cointment strongly recommends its use to all persons who have charge of children. Accidents will occur in the nursery in spite of the greatest caution and utmost vigilance. The scratch, the burn, or the scald, treated early with this Ointment, assumes no angry aspect, and never long totues the little sufferer, whose very cry exites each bystander's compassion and pierces the particular to the scale of the scratch of the scale of the sca

Holloway's Cintment and Pills—Palpitation, Shortness of Breath, Dropsy.—This last named disease is often preceded by irregular action of the heart, and difficult respiration which symptoms are always severe, and ever go from bad to worse, unless proper means of cure be resorted to. In Holloway's unrivalled Ointment and Pills the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the steady application of this noble Ointment invariably results in a lasting and satisfactory cure. The two medicines act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferentiated in the oppressive symptoms daily decline, till natural health returns. HOLLOWAY' OINTMENT AND PILLS .- Fistu

las, Piles, Exceriations, and Strictures, are speedily relieved and ultimately removed by applying this Ointment after fomentation with war plying this Ointment after fomentation with warm water. Persons suffering from these securges of the human frame should arrest their progress at once, for it is both insidious and rapid. Fistulas, if long allowed to go on unchecked, not only weaken the nervous system, but destroy life. The sooner these inestimable remedies are used the more certain is success; yet none should despair, hopeless cases have often yielded, and the sufferer has been sayed a painful death. In exceptations, a few applications of this healing Ointment effect a cure, while the Pills, conjointly used, are especially beneficial in relaxing and removing strictures, whatever their situation or duration.

Holloway's Ointment and Pills, a certain remedy for diseases of the skin—Ringworm, seury, scrofula, or king's evil, sore heads, and the most inveterate skin diseases to which the human race is subject, cannot be treated with a more safe and speedy remedy than Holloway's Ointment and Pills, which act so peculiarly on the constitution, and so purify the blood that those diseases are cradicated from the system, and a lasting cure is obtained. They are equally efficacious in the cure of tumours, burns, scalds, glandular swellings, ulcrous wounds, rheumatism, contracted and stiffjoints. These medicines operato mildly and surely. The cure effected by them is not temporary of apparent only, but complete and permanent.

Holloway's Pills—No family should be without these pills—Their long-tried efficacy in removing indigestion, stimulating the bowels, and purifying the blood, have secured them imperished prize throughout the globe. Whatever the disease, a few doses will relieve the more urgent symptoms and thereafter completely control all disordered action, rouse the torpid liver, empty the energy energy and the reby confer on the brain and every function healthful vigour, natural activity, and wholesome regularity, in cases of indigestion, dimness of sight, headens, mental and physical lassitude, these restorative Pills act as a charm. They expel theumatism and gout, while they inf-filibly correct female complaints in young and old, delicate and robust.

complaints in young and old, delicate and robust.

Holloway's Pills and Ointment—Stomach and Kidneys. Between these two organs there exists a close and intimate relation which is demonstrated by the wasting which occurs in all discases alliching the kidneys. The disordered stomach is often the first index of renal irregularity. Holloway's remedies used at that juncture would cut short many a serious and fattal attack. They act with wonderful efficacy on every organ of secretion, but especially do they regulate the stomach, liver and kidneys, in restoring their healthy functions, and casting out any obstructions or impurities. It is necessary for the ointment to be well rubbed into the small of the back twice daily, when it is absorbed, and greatly augments the purifying and salutary influence of the Pills.

Holloway's Ointment and Pills—Acute.

HOLLOWAY'S OINTMENT AND PILLS.—The mily medical chest that is furnished with these family medical chest that is furnished with these powerful remedies needs nothing more. Indigestion, general dibility, liver complaint, cruptions, sores, wounds, ulcers, tumours, &e, are infallibly cured by their use. They purify the blood and give tone and vigour to the whole system. The Ointment, when well rubbed into the parts affected, enters the flesh just as salt enters meat, and if the Pills be taken as an auxiliary, are cure is speedy, thorough, and permanent. These medicaments are composed of rare balsams, without the admixture of a grain of mercury or any injurious substance. They are peculiarly mild and gentle in their action, and are as safe as they are effectious.

fluence of the Pills.

Holloway's Ointment and Pills—Acute Rheumatism. In all severe pains in the joints and muscles, after due fomentation with hot water, the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, case pain, reduce the swelling, restore the frecirculation, and expel the disease. In these complaints, indeed, Holloway's Ointment and Pills are an infallible specific. The Ointment should be rubbed as near the part in pain as the patient can beer; it is absorbed and directly conveyed to the diseased textures, when, acting on nerves, vessels, and guiders, it will arrest disease and spain establish healthy action. The aperient and purifying qualities of the Pills have the happiest effect in assisting the Ointment.

HOLLOWAYS PILLS.—General debility, low spirits, and nervous irritation, are the consequences of dyspepsia or indigestion. The Pills soon give tone to the stomach, renovate the digestive powers, purify the blood, and give strength to the whole system. Sluggishness of the body and depression of the mind are succeeded by a cheerful activity of the physical and mental functions. Indigestion is the parent of so many ovils, and is so common, so universal a complaint, that it is a great blessing that such a remedy as this invaluable medicine should have been discovered. No one need long suffer from indigestion with these Pills at mand.
